Speed Networking Lunch at The Whitehall House

What a day! 40+ business professionals gathered for a unique speed networking event. Each was given just over a minute to tell their story. Being the networking experts that they are, many finished with time to spare -- and with a healthy dose of humor! We had lunch, a packed table of marketing materials, and plenty of time for people to talk individually following the quick introductions. So many connections were made! And Kelly was an outstanding host of The Whitehall House.

Thank you, everyone, for a successful event and all of the compliments. It is why the Chamber exists!

Field trip to see Small Cells on the Campus

It was an informative afternoon with Crown Castle, learning about wireless infrastructure, the future of wireless, and 5G. We had a fine representation of member businesses and community organizations that attended. The presentation was extremely informative, and we even got a tour of the small cells!
